Schedule of Investment

Digital Images

In general – obtaining the digital images with the idea of saving cost is not a good idea.

Naturally, we offer a wide range of products and services for our discerning clients. Many hours of work go into each individual finished image; and we control the production process end-to-end to ensure quality.

Unfortunately, some people believe the discount merchants offering print-only services produce identical quality. They do not. Also the prices they charge are for mass-produced, machine made, produced to the lowest-common-denominator article. The exact opposite of what we are producing here. Their pricing only reflects the physical cost of the automated manufacturing process and does not take into account any of the many hours or days creative effort & operating costs of a modern studio.

In all, we do not recommend clients print their own images, and often we find they actually do not want to. They simply want to either view them on a computer, email them or post onto websites like Facebook etc. That is entirely different and has no value, since the quality of the image required to do that is tiny. If required, our clients can obtain a copy of any image they buy from us in a resolution or size appropriate for use in those digital realms; free. In fact, we will even post the image onto your Facebook page for you!

Still, there are some who want to print for themselves, and while we do not encourage it; we can supply high resolution images in level 12 jpeg format suitable for printing :

Image Type	Set Size	Comment	Investment
Base images [as taken by camera] with standard post-production. Only available to wedding clients.	10 images of your choice	Base images with standard post production are perfect for most situations, for emailing, scrap-booking, basic printing as gifts etc	450
	All images from wedding		850
Images with Kira's Magic Touch tm	3 images of your choice	Kira applies her artistic skills to take the image to its full potential as a work of Art, as envisioned when the image was taken	450
Full set of base images plus Kira's selection of minimum 20 images to have Magic Touch tm	All images from session plus at least 20 with Magic Touch	For those who want a large number of images with Magic Touch to more fully represent the artistic view of their session	2850

Notes:	1. Images are supplied as full size, category 12 jpegs at 300dpi. True high resolution. Typically suitable for printing to about 11x16"; depending upon the individual image. [For example, certain low light images may not have sufficient quality to print clearly at 11x16".] Printing beyond 11x16" is not recommended. Cropping is not recommended. Editing or other processing of the jpeg image will seriously degrade quality and image impact. The studio takes no responsibility for quality or colour issues of any printing not ordered through the studio.
	2. To ensure maximum quality of printed and mounted items, in accordance with the photographer's original vision, the studio strongly recommends ordering finished product through the studio
	3. Copyright remains with the studio. Image sets are supplied with a licence to use the images for private, non-commercial use only

Schedule of Investment

Magic Touch™

All image prints larger than 4x6", wall mounted products and albums ordered and supplied through this studio automatically include Magic Touch™.

Magic Touch™ is the process of completing the full, creative artistic vision of the photographer, by the application of considerable post-production artistic techniques. The result is an image of great and unique value, in accordance with the artist's original vision.

If you have your own images, and wish Kira to apply her Magic Touch to your images, that can be done at an hourly rate as shown below. The images will be returned to you along with a licence to use for private, non-commercial use only. Copyright in the modified image remains with the studio.

If supplying images to the studio, the customer is required to sign an indemnity authorising they have the original copyright owner's permission to supply images for enhancement, and indemnifying the studio against any actions or costs involved with any breaches of copyright.

Should you require the studio to print or mount your resulting image, please contact the studio for a specific quote.

Albums are also available based upon a large number of supplied images, and are quoted on a case by case basis.
